

CAPS FOR CANCER RESEARCH

February 19, 2006 - Newsletter N° 57

Cap from the Netherlands

The objective of C4CR is to gather 10.000 different beer caps, which will then be sold to a beer museum, with 100% of the proceeds being donated to a Cancer Research Foundation.

Thank you to all of our friends around the world for helping us with this worthy project.

As you faithful C4CR newsletter readers do know, we strive at reaching our goal of 10.000 different beer caps, using a bit of humour. This time won't be different although in this issue we'd like to pass on a very serious message as well: stay away from drugs, thus today's choice of caps from Australia, Austria, Canada, the Czech Republic, Finland, Germany, Greece, Italy, Mexico, the Netherlands, Slovakia, Spain, Switzerland & the USA. Can you guess where each comes from?

• **Health warning!**

PLEASE TAKE NOTE! - There is a dangerous drug currently circulating in professional circles. It is possible that you already are addicted to this drug called the Worse Overload Recreational Killer (WORK). If you receive WORK from any of your colleagues, boss or anyone else via any means, DO NOT ACCEPT IT. This drug will wipe out your private life completely! If you should come into contact with WORK, put your jacket on, and take two good friends to the nearest pub. There you should purchase a program called Work Isolator Neutralizer Extractor (WINE). This is available in several formats. The quickest acting WINE type is called Swift Hitting Infiltrator Remover All Zones (SHIRAZ), but this is the more expensive foreign version. The cheaper version, which could give you some real headaches, is known as Pro-Light Organism Network Killer (PLONK). Run the WINE program repeatedly until WORK has been completely eliminated from your system. To assist in the complete eradication of this drug addiction, please forward this warning to five friends. If you do not have five friends then it is highly likely that you are dangerously addicted, and WORK is controlling your life. This drug is DEADLY (Destroys Every Available Decent Living Youngster).

UPDATE (February 19, 2006): After extensive testing here at C4CR, it has been concluded that Best Equivalent Extractor Remedy (BEER) may be substituted for WINE, but the program will have to be run more times for the same effect. Also, you absolutely must send the Certifications of Activated Professional Safety (CAPS) to C4CR as soon as possible for verification of your new drug-free life.

**Be smart,
Stay drug free!
Be nice,
Send C4CR some caps!**

Cap from the USA

Answers:

Row 1: Czech Republic, Slovakia, Mexico, Austria, Italy, Germany & Canada.

Row 2: Spain, Australia, Finland, Greece, Switzerland, USA & Netherlands.
