

CAPS FOR CANCER RESEARCH

April 23, 2006 - Newsletter N° 60

Cap from Canada

The objective of C4CR is to gather 10.000 different beer caps, which will then be sold to a beer museum, with 100% of the proceeds being donated to a Cancer Research Foundation.

Thank you to all of our friends around the world for helping us with this worthy project.

Once again, I have been asked whether I was a male chauvinist pig, because of the cap displaying "male" Saints in issue N°58. Life is so unfair! Well, all I can say is that one out of three ain't so bad... Indeed, my only claim to fame is to not be female. And to prove that I am not a chauvinist pig, please find below caps representing "female" Saints. Yes, there had been some... (caps I mean). They come from Argentina (x2), Bolivia, Brazil (x2), Canada, the Dominican Republic, Italy (x3), Portugal, Spain, Venezuela & the USA. Can you guess where each is from?

- **Kudos to our contributors**

Many thanks to "Santa" Cristina R. from Genoa, Italy, a dedicated crown cap collector, who just sent C4CR some nice caps that she picked up during a recent collector's meeting held in Nuremberg, Germany. Thank you Cristina, we really appreciate your dedication and support.

- **Beer joke!**

A man goes into a lawyer's office and states: "I heard people have sued the tobacco companies for giving them lung cancer, and McDonald's for making them fat."

The lawyer acknowledges: "Yes, that is correct."

The man says: "Well, I'm interested in suing too."

The lawyer asks: "Which? McDonald's or the tobacco companies?"

The man replies: "Neither, I want to sue Budweiser for all the ugly women I've slept with..."

- **Beer quotes**

Beer: Helping ugly people have sex since 3000 B.C.

Beauty is in the eye of the beer holder.

Agua mineral Radioactiva?

Don't know about this...

**Wouldn't you rather drink beer
and save the cap for C4CR?**

Cap from Brazil

Answers:

Row 1: Bolivia, Brazil, Dominican Rep., Italy, USA, Argentina & Italy.

Row 2: Venezuela, Argentina, Canada, Portugal, Italy, Spain & Brazil.
