

CAPS FOR CANCER RESEARCH

December 12, 2004 - Newsletter N° 30

The objective of C4CR is to gather 10.000 different beer caps, which will then be sold to a beer museum, with 100% of the proceeds being donated to a Cancer Research Foundation.

Thank you to all of our friends around the world for helping us with this worthy project.

Far from us the idea of making a mountain out of a molehill, but with Winter around the corner, and with it dreams of snowy peaks, we thought you'd enjoy caps such as the ones featured below. Can you guess which cap comes from Azerbaijan, Canada, Georgia, Indonesia, New Zealand, Poland, Portugal, Romania, the Russian Federation, Slovakia, Spain, Turkey, the United States of America and Venezuela?

• How far are we?

So far and thanks to your help, we have gathered over 5,900 different beer caps from 146 parts of the world! Not quite the height in meters of the K2, not quite the summit of happiness, but good news still: we have never been so close to reaching our goal of 10.000 different beer caps! We obviously still need your help, so please do continue to send us caps.

Cap from the UK

• Famous beer quotes:

- "An intelligent man is sometimes forced to be drunk to spend time with his fools." - Ernest Hemingway.
- "A sensitive, caring, thoughtful, intelligent person sometimes drinks a beer from a small micro-brewery to salvage a rare cap for C4CR." - Newsletter editor.

• Kudos to our contributors:

Tanya R., always travelling and enthusiastic about helping C4CR, just brought us back some nice elusive caps from Georgia (one of them being featured above). Thank you so very much Tanya for helping C4CR acquire beer caps yet from another country!

**No need to climb the Everest to help C4CR!
Just enjoy a local brew and send us the cap!**

Cap from Nepal

Answers:

- Row 1: Indonesia, New Zealand, Slovakia, Canada, Poland, Turkey and Spain.
Row 2: Russia, USA, Portugal, Venezuela, Georgia, Romania and Azerbaijan.
