

CAPS FOR CANCER RESEARCH

January 9, 2005 - Newsletter N° 32

Cap from the USA

The objective of C4CR is to gather 10.000 different beer caps, which will then be sold to a beer museum, with 100% of the proceeds being donated to a Cancer Research Foundation.

Thank you to all of our friends around the world for helping us with this worthy project.

To start off 2005, and continue with the C4CR tradition of guessing the country of origin of each cap, can you tell which cap comes from Australia, Belgium, Canada, the Czech Republic, Denmark, Germany, Italy, Norway, Poland, the Russian Federation, Slovenia, Sweden, Ukraine, the United Kingdom and the United States of America, as we have arranged them to wish you a fantastic and ...

• ***Kudos to our contributors:***

Once again, we'd like to express our gratitude to someone very special to our cause: Bob A. from Clarkston, Michigan in the USA, who has been contributing many a cap to C4CR. Bob just sent us a package of 200 or so beer caps he has been accumulating this past year. As Bob explains: "I am still drunk from my dedication to C4CR and may never sober up, but it sure has been fun (Hic!)". Do not worry Bob we are very grateful for your sacrifice, and expect no less from you in 2005!

Cap from Germany

• ***Beer jokes:***

- How many men does it take to open a beer? None. It should be opened by the time she brings it...
- How does a man show that he is planning for the future? He buys two cases of beer.
- Stopped at a friend's house the other day and found him seriously stalking around with a fly swatter. When I asked if he was getting any of them, he answered, "Yeah, 3 males and 2 females". I thought about that for a while but just had to ask, "How can you tell the difference between the males and the females". In a rather matter of fact attitude, he said: "That's easy, three of them were on a beer can and the other two were on the phone!"

***Good wishes time:
With my help, may C4CR
reach the magic 10.000
number in 2005!***

Cap from Germany

Answers:

Row 1: Poland, Belgium, Denmark, Italy, Norway, Russia, Canada & Sweden.

Row 2: Ukraine, Slovenia, USA, Germany, Australia, Czech Republic & the UK.
